

Dear Veteran,

TheraSpecs provide a great benefit to veterans with post-concussion syndrome, migraine, and other conditions that can be worsened by light. Eligible veterans can get TheraSpecs through their health benefits at the VA. Typically classified as a "sensory aid" benefit, they can be prescribed or recommended by a VA health care provider and ordered through the VA Rehabilitation and Prosthetics Department (or its local representative).

You can see all of our available styles at <https://www.theraspecs.com/shop/>.

Once you know which style, frame color, and lens options (indoor or outdoor) you would like, please contact your VA health care provider to discuss the next steps for receiving your TheraSpecs. Sharing this letter with them will provide them with the details necessary to request your TheraSpecs. Feel free to reach out to us at contact@theraspecs.com or 1-844-276-6843 if you have any questions.

It is truly an honor and privilege to serve our nation's veteran population. We look forward to working with you.

Sincerely,

A handwritten signature in black ink that reads "Hart".

Hart Shafer
Founder and CEO
TheraSpecs
